## *South Africa* Update

40<sup>th</sup> IPHE Steering Committee Meeting  
4 – 5 October 2023  
Washington DC, United States

# Announcements / New Initiatives *South Africa*

- **South Africa became Chair of the Africa Green Hydrogen Alliance in September 2023**
- **Government funding towards the Hydrogen South Africa Programme has been consistent over the years (~USD10 million)**
- **More funding contribution is starting to come from Private sector partnerships**
- **Core policy framework (HSRM, Just Transition Framework, JET-IP) has been established but further refinement is required to close the gaps for effective implementation**
- **While there has been a spike in public events such as Conferences on Hydrogen related technologies, more effort is required to inform the public about the technologies**
- **Private sector is getting more involved in project Development, Demonstration and/or Deployment Activities but projects are yet to reach FID.**

# Announcements / New Initiatives *South Africa*

# Announcements / New Initiatives *South Africa*
